CASTLE GARDEN: America's First Immigration Center

Castlegarden.org is a free database developed and funded by The Battery Conservancy. It contains and makes available eleven million records of immigrants who arrived at the Port of New York from 1820 - 1892. Today more than 100 million Americans can trace their ancestry to this early period of immigration.

Castlegarden.org is a resource for educators, scholars, students, family historians, and the interested public.

With the increased volume of immigrants arriving sick or having died in transit, the U.S. Congress in 1819 passed legislation to limit the number of passengers on each ship. The US Customs Service was designated to monitor immigration.
